

In June 2022, Nazareth Regional High School celebrated 60 years of providing an excellent education to the more than 10,000 students who have passed through our doors.

Through the years, our Mission has expanded to serve young people who aren't Catholic but want to experience a superior education and feel part of a larger faith based community.

Our long term viability means we need to ensure our families have access to a Nazareth education. This is especially those who can't afford it.

Following our Founder's guidance, "we march on in faith" knowing that God will provide.

That Mission continues today!

*Through the years, the places where our students and their families have immigrated has changed, but our commitment to "transforming lives and developing leaders" remains. During our early years, it was the children of Irish and Italian immigrants and today, it's from throughout the Caribbean. As we look back, we see that Nazareth responded to the needs of an ever changing community **through the years.***

Measures of Success

In 2022, Nazareth RHS had:

- * 98% graduation rate
- * 99% of graduates went to a 4- year college
- * More than half take AP classes.

Our goal is to raise \$250,000 this year to continue to provide an excellent education to the hundreds of kids who come to us each year!

We are asking you our alumni, donors, and supporters to answer that call.

YOUR GIFT will help Nazareth continue to" transform lives and develop leaders" .

For this we thank you!
